You have not been certified for the following Income Types and Components:

Unsupported Income Types

- N/A

Unsupported Components

- Replacement of key identifiers using the previous Payroll ID

If you wish to enable additional functionality in your product for any of the Unsupported Income Types or Components listed, you will need to submit an [additional STP Phase 2 Extended Conformance Testing](#) ticket via Online Services for DSPs. Based on the information supplied, you will be provided additional test cases to undertake.

The ATO Conducts monitoring of the data lodged through your software. We may re-assess your whitelisting suitability if Unsupported Income Types or Components are reported that haven't been certified through the Extended Conformance Testing.

If you have questions or need further assistance, contact the Digital Partnership Office (DPO) via [Online services for DSPs](#) or by emailing DPO@ato.gov.au.
